

# SLIIT / bashaway 2022

SLIIT FOSS Community

# ./What is SLIIT FOSS Community

We are a group of volunteers who believe in the use of Free/Open Source Software (FOSS). The primary objective of the community is to promote, develop, and diversify the usage of free and open source software at SLIIT.

## ./Our Mission

Educating and promoting groups and amplifying and advocating the message of the FOSS ideology to achieve software independence for all SLIIT FOSS enthusiasts.

## ./Our Vision

To support and inspire the global community on behalf of Free and Open Source Applications throughout the path to reach the optimum standard of technology!

## ./Our Strategy

Supporting FOSS-related projects and communities in Sri Lanka in infrastructure and advisory.

# ./What is ./bashaway 2022 ?

./bashaway 2022 is a challenge driven competition, where competitors have to develop automation scripts in bash, Python or any suitable language for a specific scenario within a given duration.

Additionally, a website and a platform will be implemented for this competition. Through the website, competitors can view the timeline, rules and regulations, mentoring and awareness session details and a countdown for the deadline. The platform will allow teams to register for the competition.

Challenges will be visible on the competition platform once the competition begins.

# ./Why ./bashaway 2022 ?

./bashaway 2022 aims to sharpen a participant's analytical thinking, problem-solving, and scripting skills through its challenges.

Also, participants get to test their skills against other skilled participants and improve their own timing in a competitive environment.

Student Community | SLIIT

SLIIT Women In FOSS  
Community

Mozilla Campus Club of  
SLIIT

# ./Who can participate?

./bashaway 2022 is aimed at undergraduates.

All undergraduates in state and non-state universities as well as higher education institutes are eligible to apply.

# ./When and Where?

## ● ./Venue

The competition will take place online on a competition platform that will be accessible for registered teams only.

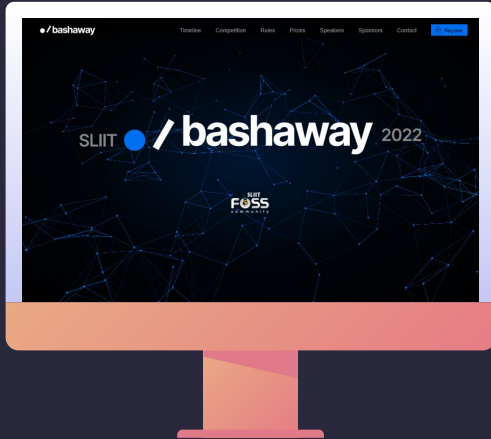

## ● ./Date & Time

**1st of October 2022**

From 9.30 AM onwards

Competition details will be briefed during the awareness session and feel free to contact us for further clarification.

< Competition website >

Visit the competition website for updates on mentoring sessions and to **register** for ./bashaway 2022.

# ./Rules and Regulations

## /01

A competing team can consist of **1 to 4 members**.

## /03

Each team must register through the competition platform by entering team details and necessary information about its members.

## /02

The competition will be an online contest where teams compete within a given set of task-based challenges in a timed setting.

## /04

The challenges will be available on the competition platform when the competition begins.

# ./Rules and Regulations

## /05

All team members must login with the same credentials provided  
> during team registration.

## /06

Points will be assigned according to challenges and sub-tasks of each challenge.  
>

## /07

The highest scoring team will be considered the winner and a score board will be updated periodically (not in real time). The rate will depend on the registered team count and will be informed later.  
>

## /08

Extra points will be awarded based on the number of lines of code and the level of optimization (this score will be calculated by a predefined formula).  
>

# ./Awareness Session

Participants will be given a complete idea of ./bashaway 2022, and the competition's rules and process through the awareness session.

**14th of September**

7.00 PM to 7.30PM

**WATCH on YouTube**

# ./Mentoring Sessions

Mentoring sessions are to be provided for competitors to improve their expertise through the competition.

# ./Mentoring Session #1

Learn more on **the features of automation** and **docker usage** with:

Join LIVE via YouTube

## Introduction to Automation

by Jananath Banuka

14th of September

7.30 PM onwards

# ./Mentoring Session #2
